Why SolarNest Stands Out?

01

For Investor:
- Manage all your portfolios in a single platform
- Minimize Technology Risks
- Track Technical and Financial Performance
- Enhance profitability and easily forecast revenue

02

For Asset Owner:
- First hand-understanding on performance issues based on real site data
- Prosecute and monitor warranties
- Monitor the Priotize the O&M activities
- Generate detail reports easily from your laptop, mobile phones
- Optimise the performance lifecycles of the assets

03

For EPCC:
- Project management
- Decrease operational and maintenance costs by minimizing on-site manpower deployment
- Enhance manpower efficiency by deploying them across multiple sites to lower expenses
- Monitor remotely, receive real-time alerts, and easily predict maintenance needs
- Secured one platform for all your necessary information
